**FOR IMMEDIATE RELEASE**

### **Tandel Systems, Inc and DornerWorks, Ltd Create Joint Venture**

Grand Rapids, MI, July 22, 2010 – Tandel Systems, Inc. of Oldsmar, Florida and DornerWorks, Ltd. of Grand Rapids, Michigan are pleased to announce the launch of their joint venture, TeamWorks Engineering, LLC (TeamWorks). Established to serve the systems engineering needs of the aerospace, defense, government, medical, automotive, and industrial markets, TeamWorks expands the geographic reach and skills portfolio of the respective partners, extending their ability to deliver the quick, flexible, and cost-effective solutions customers have come to expect from the two companies. TeamWorks offices are in Michigan, Florida, Ohio and Arizona.

Over a year in the making, TeamWorks is the brain child of Mike Varga and David Dorner, the Presidents and founders of Tandel Systems and DornerWorks, respectively. With over 20 years combined experience and an impressive staff of 125 employees spanning four states, TeamWorks leverages the expertise of both DornerWorks and Tandel Systems into a single source engineering firm for new and existing clients nationwide.

David Dorner had this to say about the recent announcement: “The TeamWorks Joint Venture is a great strategic move for our two parent companies, DornerWorks and Tandel Systems. Together we offer broader geographic presence, broader capabilities, and larger bandwidth to meet our customers’ engineering needs. Both of our companies have succeeded in bringing engineering excellence into the marketplace, and I am excited to expand this engineering excellence even further via TeamWorks Engineering.”

Mike Varga commented, saying “I’m very excited to be able to offer our industries the combined capabilities, capacity, financial strength, and geographic reach of TeamWorks Engineering; together we are best able to handle the growing demand for performance and quality driven engineering solutions.

DornerWorks and Tandel Systems will continue to provide the professional engineering services their customers have come to expect, while offering new and existing customers expanded services and support.

#### About TeamWorks Engineering, LLC
